

The World Wetland Network delivers a set of awards to recognise best practice in wetland management, and to highlight wetlands in crisis. The awards, known as the Wetland Globes, offer community and grassroots groups an international voice on their local wetlands. NGOs voted on their wetlands of national or international importance based on how their local wetlands are managed. The votes were collected via the WWN website, and the results approved by the World wetland Network Committee.

This certificate is to recognise that

_____ *Kopacki Rit* _____

Has been awarded the **World Wetland Network Grey Globe Award**, for wetlands under threat.

Signed by

_____ *Chil* _____

Chair of the WWN
